Akeni LAN Messenger [Win/Mac]

Akeni LAN messenger is a multi-platform instant messaging application that works on many operating systems including: - Windows 2000/XP/Vista (32 & 64 bit versions) - Linux - Mac OS X - Windows Mobile The LAN Edition is perfect for LAN-enabled computers to communicate over local networks. Akeni LAN messenger works well with home computers, networked storage devices, and other networked devices such as printers, modems, etc. Akeni LAN messenger was designed as a LAN-based Instant Messaging client to support online communities that are usually accessed via the Internet. Akeni LAN messenger supports file transfer (CIFS) and Microsoft's MSN Messenger compatible XJMP protocol for instant messaging. When used together with Microsoft's WebDav service (you can access Akeni messenger from a web browser, and even from the Mac OS X Finder. You can store personal and work related information in a central database, share documents from a desktop computer or a storage device, and present information to the world via WebDAV-enabled web pages. You can also create your own messages or "sticky notes" on your own computers, and share them to friends and colleagues. You can also send and receive individual files from your computer or other devices. There is no limit to what you can do. Immediate file transfers Use Akeni LAN messenger to transfer files between your computer and other computers on the same network. Akeni LAN messenger supports CIFS (Common Internet File Sharing) for TCP/IP file transfer over a LAN connection. CIFS can be used from your PC or Mac, Windows Mobile devices, or even from WebDAV-enabled web browsers. You can also browse, upload, or download files using the WebDAV protocol. This enables a web browser to directly connect to a LAN-based application and retrieve and save files. Share and manage contacts Akeni LAN messenger supports multiple accounts with contact lists. You can save chat history, manage your contact lists, and keep in touch with your friends and family from any computer. You can even use Akeni LAN messenger to view your message history and chat logs from your mobile phone. Hotline You can instantly create a phone connection to your computer by using the built-in directory of phone numbers. Just dial the phone number and chat away. Messaging and file transfer alerts

Akeni LAN Messenger With License Key For PC

... #IMPORTANT Use ONLY a Logitech USB webcam in order to take screenshots using this program. #NOTES To save your current screenshot use the keyboard combination: ~+PrtScn #NOTES *Create screenshot by right-click-ing on desktop and choosing "Take Screenshot" #REMARK Have a look at my Akeni Timeline Video Presentation. #FEATURES - No Internet connection required. - Take screenshots and save them on your hard disk. - Allow you to schedule the next scheduled screenshot at given time. - Take...
